

TEAM WENDY M-216™ SKI SEARCH AND RESCUE HELMET

Weight: Small/Medium: 1.27 lbs. (0.58 kg)
 Large: 1.44 lbs. (0.66 kg)
 Extra Large: 1.52 lbs. (0.69 kg)

Performance Standard:

ASTM F2040-11 (Recreational Snow Sports)

BS EN 1077:2007 Class B (Alpine Skiing and Snowboarding)

Sizing:	Small/Medium	Large	Extra Large
Head Circumference (cm)	52-57cm	56-61cm	60-65cm
Head Circumference (in)	20 1/2" – 22 1/2"	20" – 24"	23 1/2" – 25 1/2"
Hat Size (USA)	6 1/2 – 7 1/8	7 – 7 5/8	7 1/2 – 8

Colors:

-  Black/Gray (FED-STD-595C #37031 / Pantone Cool Gray 11C)
 -  White/Gray (FED-STD-595C #17865 / Pantone Cool Gray 11C)
- All accessories (rails, shroud, ear covers) are Gray (Pantone Cool Gray 11C)

Shell Assembly:

- › Glass-reinforced polycarbonate shroud for mounting NOD's, cameras and head lamps
- › Hybrid shell design – ABS/PC copolymer hard front shell provides reinforcement for mounted accessories, and an in-mold PC rear shell reduces weight
- › 14 total vents: 8 crown (adjustable), 2 front (passive open), 4 rear (fixed open) for maximum cooling during high exertion rescues
- › 8 adjustable crown vents have three positions: full open, half open and full closed for completely on-the-fly user selectable comfort
- › Above-goggle vent channels draw air through the helmet to the rear exhaust ports to reduce goggle fogging
- › Integrated goggle strap retention

Liner System:

- › Lightweight EPS impact liner with a removable and washable comfort liner
- › Meets the impact attenuation requirements of both ASTM F-2040 and EN1077 Class B
- › Removable ear padding was specifically designed to be comfortable while using in-ear communication systems, and includes a pocket for audio device compatibility

Retention:

- › Customized Boa® Closure System for precise fit adjustment with single handed quick release
- › Under the chin strap utilizes Fidlock® magnetic buckle closure for one handed operation even while wearing gloves

Accessories:

- › Attached accessory rails allow for mounting a variety of lights and cameras
- › Forward mounting position of the rail directly interfaces with Princeton Tec® MPLS Point, Switch, and Switch Rail lights to provide an extremely low profile, fully integrated task light
- › Open area on the crown allows for mounting of cameras and beacon lights, including the MOHOC® military-optimized camera, and Core Survival HEL-STAR 6® multi-function light
- › Optional Picatinny Quick Release Rail Adapters allow tool free removal and attachment of any standard Picatinny mountable accessories
