

B&T foregrip with bipod

B&T foregrip with bipod

This grip is made for the HK MG5. It is very versatile. Primarily it is a foregrip but due to the integrated bipod, which can be extracted quickly, the operator can enhance the accuracy drastically for long distance shots. Thanks to the QD mount, the whole grip can be dismantled from the NAR/Picatinny rail of the rifle quickly.

Additional Information

Article-no.:	HK-975804
