

## B&T elevated cheek rest for the length adjustable and foldable APC stock

### **B&T elevated cheek rest for the length adjustable and foldable APC stock**

Special optics (night vision, thermal) require higher mounts. In these cases an elevated cheek rest is helpful in order to position the eye/ the head in the optimal position. The B&T cheek rest raises the stock 12 mm. It is compatible with stocks BT-36998, BT-36360, BT-20393 und BT-20404.
