

## B&T foldable foregrip with bipod

### B&T foldable foregrip with bipod

This grip is the perfect solution for many situations. Hinged down it is primarily a fore grip, but due to the integrated bipod, which can be extracted quickly, the operator can enhance the accuracy drastically for long distance shots. When using a sand bag as rifle rest or when transporting the rifle, the fore grip can be raised easily. Thanks to the QD mount, the whole grip can be dismantled from the NAR/Picatinny rail of the rifle quickly.

#### Additional Information

Article-no.:	BT-211150
Bipod:	Yes, aluminum
Foldable:	Yes
Fixation:	lever with integrated safety
Height:	170 mm
Weight:	362 g
Material:	Aluminium
Color:	black
