

B&T cartridge SIR 40x46mm

B&T cartridge SIR 40x46mm

The impulse cartridge SIR is the perfect choice for violent public order applications. The SIR is not only very accurate and therefore can be shot out of the GL06 beyond 50 m with highest hit probability. It is also safe at close ranges, as the University of Bern, Switzerland states in an expertise.

Besides that the SIR is reloadable, which will reduce the cost of training to only a few cents per round.

Additional Information

Follow the instructions of the manufacturer

Article-no.:	BT-23510
Energy:	116 Joule
Calibre:	40 x 46 mm
Total length:	99 mm
Weight:	77 g
NSN:	1310-22-616-1134
